

Temora Gliding Club Covid-19 Safety Plan

This document has been prepared to reflect information from the following source documents:

[Current NSW Covid-19 Guidelines](#)

[Commonwealth Health Guidelines- Good Hygiene for Coronavirus](#)

[GFA AN 179](#)

The purpose of this document is to highlight NSW Government Covid-19 safety requirements and control measures specific to gliding operations at Temora Airfield.

A copy of this plan is available on our website <https://temoragliding.org.au/> and should be read by all members and visiting pilots before involvement in gliding activities at Temora.

Current key requirements of government Covid-19 guidelines include:

- Use of QR code check in is mandatory.
- Vaccination is strongly recommended.
- Masks should be worn where social distancing is not possible
- Stay home if you have any symptoms, even if they are only mild.
- If you have cold or flu like symptoms you should seek medical advice and get tested for COVID-19. You should get tested even if your symptoms are mild.
- practise good hand hygiene. Wash your hands often with soap and water or use alcohol-based hand sanitisers when you can't use soap and water.
- avoid touching your eyes, nose, and mouth.
- Comply with 1.5 metres physical distance where practical.
- Avoid shared food and drinks. Bring your own water bottle, snacks, etc.
- Clean frequently touched areas and surfaces.

- take extra care if you're around vulnerable people.

Members and Visitors Responsibilities.

Being fully vaccinated is strongly recommended! Gliding involves interacting with multiple others prior to and after flight. Dual flights are clearly a high-risk activity as social distancing is not possible. While assessing the risk is a personal responsibility it is most unlikely club instructors will fly with individuals where they believe the risk of transmission in either direction is elevated.

Usage of facemasks. Masks should be worn where social distancing is not possible as a precaution against infection. Government guidelines are rapidly evolving, it is important members stay aware of current requirements.

Personal Hygiene.

In addition to avoiding touching your face, you should wash your hands often or use hand sanitiser and consider the use of PPE (disposable gloves and face masks) at appropriate points. You should also avoid touching others and maintain at least 1.5m physical distance as much as practical.

Cleaning and Sanitising Gliders.

A guide to what and how to sanitise aircraft is found in the GFA's Airworthiness Advice Notice AN-179 – Disinfecting Cockpits and Associated Aviation.

All club gliders are to be thoroughly cleaned and sanitised before use each day and on switch over of pilots and passengers during the day. A cleaning and PPE kit will be made available for Club gliders.

Daily Briefings.

A physical distance of at least 1.5 meters should be maintained between all present. During the busy January period where pilot numbers are large the Aeroclub rooms are not to be used. Briefings are to be conducted outside or in the council hangar with doors open to allow airflow

Flying Operations.

Pilots are to sanitise their hands and consider wearing disposable gloves before starting a walk around, during the flight, and until they hand over the glider to the next pilot/s. For dual flights, pilots should also consider wearing a face mask for additional protection when in the confines of a cockpit where the minimum physical distance requirement is impractical.

Attendance Register.

All pilots and visitors must use the Service NSW QR code to register their attendance at the airfield each day.

Please check in before entering our premises.

We're helping keep our community COVID safe by recording contact details.

It's easy to check in:

- 1 Scan the QR code with your smartphone camera or QR code reader.
- 2 Follow the prompts on the Service NSW app or on the Service NSW webform.
- 3 Show a staff member that you've signed in.

We respect your privacy

When you scan the QR code, the only personal information sent to Service NSW is your Customer ID, the location of the business you are visiting, time and the date of your visit. The business will not see or collect this information and it will only be used for contact tracing. We only keep this information for 28 days unless required for contact tracing related to a COVID-19 hotspot. Please refer to the collection notice in the app for more information.

This QR code is for Temora Gliding Club Inc., located at 15 Spitfire Drive, Temora NSW.
